

Tough Enough To Survive , No Matter What Kind of Air You Feed It!

Features:

- Ceramic plates form an extremely tight seal.
- Near diamond hard ceramic plates easily shrug off dirt and rust introduced via the air supply.
- 150 million shift cycles lifetime, even under extreme conditions.
- Requires no lubrication.
- Drop-in ISO standard mounting.
- AC or DC plug-in solenoids with DIN connectors.
- Available in single and double solenoid models as well as single air or double air piloted versions.
- Four ISO valve sizes available with sub-bases and manifolds. Does not require tie rods and can be bottom or end ported.
- 1/4" thru 1" port sizes in NPT and G (BSPP) pipe thread.
- Available in 2 and 3 position configurations. (3 position valves available in either closed center or open center operation).
- Can be utilized for challenging vacuum applications.

The secret is in the sliding ceramic plates!
