

Womack Expands Service and Repair Capabilities

Womack is pleased to announce the expansion of our repair and service capabilities, building on over twenty years of service and repair experience out of our Mountain Region. Our new facility, located in Dallas, Texas, will also become the first ever Rexroth Industrial Hydraulic Authorized Repair and Service Center (ARSC).

Repair Capabilities:

- Full range of most Bosch Rexroth pumps and motors up to 200cc
- Select range of most major manufacturers of pumps and motors up to 350cc
- Inspection and Reporting
- Exchange Programs
- Emergency Repairs
- Warranty Claims
- Conversions

Forecast Exchange:

For preventative maintenance programs where the product replacement is set for a defined timeline, we will pre-order parts so that the turnaround time is limited to 5-10 days.

Spare Parts:

Rexroth original spare parts are designed to cope with the toughest hydraulic applications.

Note:

All repairs or exchange programs are covered by a two year warranty.

Womack Authorized Service and Repair Center

World Class Test Stand Ensures Top-Quality Repairs

For Bosch Rexroth units, we compare performance data of the repaired unit with the original data from the unit when it was manufactured to ensure the pumps and motors we service are as good as new. All other manufacturers are repaired to new condition based on catalog performance data.

- 200 KW (265 HP) Variable Speed Drive
- Test pressures up to 6,500 PSI (450 Bar)
- Capable of full power tests up to size 200cc
